How To's

You calculate ERAs for 6 or 9 innings. My ERA is based on 7 innings (or another number). How do I change this?

Follow these steps to change the ERA innings pitched setting:

1. Select the "Reports" toolbar item
2. Select the report you want to edit (e.g. Overall (All Games))
3. Select "Edit Reports" from the Reports menu
4. Select the 'ERA' field
5. In the "Result" field you will see the number "6.0". Change this to your preferred setting (i.e. '7.0')
6. Select the "Save" button
7. Save the file to keep these changes

Repeat this procdure for all reports which use an ERA calculation.
